

St. Francis On Site Supervision Registration Form

As part of ongoing commitment to excellence through Embedded Professional Development, our school will continue to dismiss early on Mondays at 2:20 PM . This is an increase of 40 minutes from the previous four years. As a result, we are prepared to provide a supervised area for those students adversely impacted and with no other option who require supervision on early dismissal Mondays. If you require this assistance from the school, please complete the registration form and return it to the school office. (Please Note: Registration is required to access this service)

On Site Supervision Is...	On Site Supervision Is Not...
Safe supervised area where students can work quietly and independently on items such as homework, quiet reading and studying.	This time will not be instructional time nor will it be activity based. It will be an opportunity for students to work in a safe and secure environment until they are able to be picked up.
Student/Family Expectations....
